Instructor Questions - What about the course or the instructor was effective in helping you learn? (Optional)

What about the course or the instructor was effective in helping you learn? (Optional)
The structure of the class was very reasonable but I still felt challenged and learned new things.
Professor Magarint is amazing. Though we had a short online summer course, he has been very patient and delicate in the recitation session, and his Q&A session is very thought-provoking and enlightening. Also, he has a very organized and efficient structure in lecturing. The structure he presents to us has been far more efficient and easier to understand than the material listed in the textbook. It has been a wonderful learning experience and I hope there will be more professors like Prof.Magarint in this school!
